SUMMARY

A dedicated software developer with a strong foundation in IT and business management, transitioning from retail into the tech industry. Graduated from BINOD BIHARI MAHTO KOYALANCHAL University and completed a Python Full Stack Development course, equipped with expertise in front-end development using **ReactJS** and experience across various technologies.

WORK EXPERIENCE

NGA Publications

Sep 2024 - Nov 2024

Freelancing

New Delhi, Delhi

- Developed a responsive website to provide NEET, JEE and KCET study materials, practice questions, and test series, tailored for student preparation needs.
- Utilized React with Vite for a fast, optimized development environment, ensuring a seamless and efficient user experience.
- Styled the application with Tailwind CSS, achieving a consistent, mobile-friendly design adaptable across devices.
- Integrated **EmailJS** for streamlined user communication, allowing students to reach out directly through the website.
- Deployed on **Hostinger** for reliable performance and continuous accessibility, enhancing user engagement and site usability.

Numetry Technologies

Dec 2023 - June 2024

Software Developer - Traineeship

Pune, Maharashtra

- Proficient in FRONTEND Technologies including HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, and React-JS.
- Skilled in Integrating **APIs** and consuming **RESTful** services for data manipulation.
- Collaborating with senior developers to build user-friendly interfaces.
- Passionate about creating efficient and visually appealing web experiences.
- Utilized version control systems such as Git for code collaboration and maintenance
- Worked with designers and UX professionals to create user-centric and visually appealing designs

Standard Medical

May 2020 - May 2022

Retail Sales Assistant

Dhanbad, Jharkhand

- Utilized strong communication and interpersonal skills to build lasting relationships with clients, leading to repeat sales and high customer loyalty.
- Identified and met customer needs through active listening, personalized product recommendations, and tailored solutions.
- Maintained a positive attitude and work ethic even during challenging situations.

MAJOR PROJECTS

Project Name: NGA Publications Website

Client: NGA Publications

Developed a fully responsive website for NGA Publications using React with Vite and Tailwind CSS, offering seamless access to study materials and test series, tailored for NEET, JEE, KCET aspirants. Integrated statically content rendering and an email communication feature via EmailJS to support user inquiries and feedback.

Link : <https://www.ngapublications.com>

Project Name: Tourism Website

Developed as part of a team during my traineeship program, this tourism website offers destination guides, travel tips, and booking services. I and my frontend teammates worked on the frontend using ReactJS, while the backend team handled server-side tasks with Node.js and MongoDB.
